TALLER DE GRABADO CHAPULTEPEC

Humberto Baca, Founder/Director

Founded in 2009 by artist Humberto Baca and businessman and collector Jorge Huguenin, Taller de Grabado Chapultepec is a space dedicated to culture, creativity and artistic experimentation. As much a salon as it is a workshop, Taller de Grabado Chapultepec promotes dialogues and creative discourses among artists, printmakers and collectors. Defining the printmaking process as a personal, intimate, essential experience, the ultimate goal of Taller de Grabado Chapultepec is to produce unique and significant works of art.
